MAHURANGI
RIVER WINERY

CHARACTER

Vineyards draped across sunny north-facing hills greet you as you drive into the rustic, charming town of Matakana. As you discover the wineries, oyster farms, potteries, beaches, popular markets and so much more, you’ll get to meet the friendly locals and hear all their stories. Only 45 minutes north of Auckland.

DIVERSITY

With the first vineyard planted in the early 1970s, Matakana now has one of the most diverse mixes of grape varieties in New Zealand. 23 different French, Italian, Spanish, even Austrian varieties, comprising 14 whites and nine reds. While white wines like Chardonnay, Pinot Gris and Albariño show consistent excellence, the climate is also warm enough to ripen red wine varieties like Merlot, Syrah and Cabernet Franc. Be sure to taste the silky Italian varieties of Sangiovese, Dolcetto, Nebbiolo, Barbera and Montepulciano. The many wines of Matakana are constantly evolving and reflect with distinction their sense of place, climate and community.

PASSION

Come and meet the winegrowers and discover their passion for wine. Don’t consider it simply visiting another cellar door, immerse yourself in their wine world. If a winery is open by appointment, give them a ring and make an appointment, ask questions and soak it all in. Matakana wines are truly boutique and it’s the people behind those delicious wines, the people who hand-pick the grapes themselves that will make your visit a special one.
